Jefferson Very Small Batch	13				
Angel's Envy	13				
West Cork 8 yr Irish	13				

We are able to special order spirits not listed here, depending on distributor availability. If you choose to have us special order spirits, you will have to host all of what we order for you. The best practice here is to choose a number of servings (cocktails that include the spirit) so that we can more accurately decide on an amount. How many servings? Assume that everyone you want to offer the spirit to will try at least one. Most moderate drinkers will have 2 or more.

Depending on the cost of the spirit, we would apply our price equation to provide you an estimated cost.

Typical per-serving cost to you for special order spirits would be somewhere between \$9-11, depending on the cost of the bottle and the manner in which it is served. Inexpensive and mid-range spirits can be used in a variety of cocktails served to all guests. High-end spirits might be something that just the wedding party or parents can access.
